## WEB PROJECTS

✓ Portfolio Website : Built a Single Page Application with ReactJS as Frontend and used ExpressJs for email integration. Email integration has been done using sendgrid-nodemailer. Visit: <http://nikhilsingh07.herokuapp.com/>

✓ Book Store: Built a book store with expressjs and mongoose. It has features like login/signup. Encryption by bcryptjs, SSL Certificate, email integration, session/cookies storage. Visit: <https://nsbooks.herokuapp.com/>

✓ Real Estate : Built a single page real estate website with email integration. Visit: <https://realestatens07.herokuapp.com/>

✓ TODO : This was my first React application where you can store all your pending work. This does not store any data in any kind of database. So you can lose your data when you refresh the webpage. Visit: <https://react-course-5686c.web.app/>

## MOBILE PROJECTS

✓ Weather App Built An Android Weather App . Which gets current co-ordinates and fetches data from openweather api and renders it to app. Published on Google Play Store :

<https://play.google.com/store/apps/details?id=com.nikhilsinghns07.weatherapp>

✓ News App: Built a news app using React native expo cli . News gets fetched from api : "https://saurav.tech/NewsAPI/" and then rendered to my app. Link to my app : <https://expo.dev/@nikhilsinghns07/NewsApp>

✓ TODO List : Built mobile version of TODO app. List gets rendered on mobile screen when you touch, it gets deleted this was my first react native android application. Link to Github : <https://github.com/nikhilsinghns07/ReactNative-TODO-App>
